

**PARENTAL NOTICE AND CONSENT FORM
PERSONALIZED LEARNING SERVICE**

Your child’s teacher or school has signed up to use Summit Public Schools’ personalized learning services, which we call the Services. The Services enable your child to develop a detailed, individualized learning plan in coordination with his or her teacher and you to achieve academic success. Students will set learning goals, make a plan to achieve these goals, learn using a combination of individualized resources, peer coaching, and one-on-one mentoring, demonstrate their knowledge, and reflect on their progress.

We understand how important the privacy of your child’s information is to you. Consequently, we have outlined how Summit will collect, use and share information in connection with the Services. We support the involvement of parents and guardians in their child’s education, so we want to get your consent by signing and returning this form to the school before your child is given access to the Services.

To provide the Services, Summit Public Schools and its service providers and partners (collectively, “Summit”) will need to collect certain information from the school, you, and your child. For example, Summit may collect information that you provide or your child provides directly to Summit, such as contact information, coursework, testing, and grades. Summit also may collect information automatically from browsers, computers, and devices (such as information from cookies and browser and device identifiers in order to remember your preferences).

Summit has committed to use your child’s information to provide, develop, and improve educational services. For example, Summit may use your child’s information to conduct surveys and studies; develop new features, products, and services; and otherwise as requested by your school or consistent with your consent. In addition, Summit will not disclose your child’s personal information except to parents or legal guardians, as authorized by the school; to teachers and other users at your child’s school who have a reasonable need to know the information; as directed in writing by the school; with your permission; or as otherwise required or permitted by law. Summit also may disclose information to third-party service providers and partners as directed or authorized by the school. For example, Summit uses Clever, Facebook, and Google to help develop and improve the personalized learning plan software or to provide related educational services on Summit’s behalf.

I have read the above parental notice, and I consent to my child’s access and use of the Services and to my child’s school disclosing my child’s information to Summit. I consent to Summit’s collection, use, and disclosure of my child’s information consistent with this parental notice, Summit’s Privacy Policy, and as otherwise authorized by the school.
